OBJECTIVE

I am passionate about joining an innovative IT organization where I can contribute to software engineering projects using the latest technologies. I am excited to begin my career in software development. I am particularly drawn to organizations that offer a challenging and dynamic work environment, where I can continuously grow and excel. Contributing my best at every step and being part of a team that drives impactful solutions is my long-term career goal.

PROJECT

1. Vanas - Herbal Care E-commerce Website (Personal Project)

Technologies: React.js, HTML, CSS, JavaScript

Duration: 3 months (April - June)

Developed a responsive herbal care e-commerce website using React.js, featuring category-based routing (SkinCare, HairCare, PersonalCare, All) with dynamic product display with add to cart functionality. Designed reusable components like Navbar, Cart, and Product Grid, and integrated cart functionality using React state and props. Focused on clean, modern UI/UX inspired by contemporary e-commerce layouts.

2. Bill Application - Full Stack Java Project (ExcelR Solutions Internship)

Technologies: React.js, HTML, CSS, Java, Springboot, Mysql

Duration: 3 months (June - August)

I developed a Full-Stack Billing Application using React.js for the frontend, Spring Boot for the backend, and MySQL as the database. The application features secure authentication and authorization with role-based access for Admin and Accountant, allowing different levels of control. It includes customer and product management, invoice generation with PDF download, and reporting dashboards to provide clear insights for both Admin and Accountant. Additionally, an Admin Dashboard enables centralized control over users, products, and reports. This project demonstrates my ability to build scalable, secure, and user-friendly web applications by seamlessly integrating frontend, backend, and database technologies.

INTERNSHIP AND PROFESSIONAL TRAININGS

1. IBM Skill Build Front-end Development	Mumbai 23 June, 2023 - 28 July, 2023
2. Doordarshan Kendra	Mumbai 7th -14th January 2023
3. Excelr Solution Internship	Mumbai 1st June -31st August 2025

EDUCATION

1. Vasantdada Patil Pratishthan College of Engineering	Mumbai
• B.E. in Electronics and Telecommunication Engineering	July 2020- May 2024 CGPA: 8.06/10
2. Narayan Junior College	Hyderabad, Telangana
• Higher Secondary School	March 2019 Marks: 902/1000
3. Cardinal Gracias High School	Mumbai
• Secondary School Certificate	March 2017 Percentage: 70.6%

CERTIFICATIONS AND ACHIEVEMENTS

- Full Stack Java Developer Certification From Excelr
 - TNSIF c2tc core java , spring boot, spring, JPA, html, css, js certification
 - Appreciation Certificate from College
 - Digital Marketing Workshop (tech)n from Techiegigs
 - Google Analytics Academy
-

TECHNICAL SKILLS

- Operating System: Windows
 - Programming Language: Java (core + advanced), HTML, CSS, JavaScript , React.js, Bootstrap , Git & Github , JDBC, MVC, Spring , Spring boot
 - Database: MySQL Work Bench
-
